The background of the lower half of the page features a large, stylized image of a high-voltage power transmission tower. The tower is silhouetted against a warm, orange and yellow sunset sky. Overlaid on the right side of the image is a complex network diagram consisting of numerous blue and white nodes connected by thin, glowing lines, suggesting a digital or energy network.

WELCOME TO RAYCHEM RPG

Raychem RPG (P) Ltd., incorporated in 1989, is a 50:50 Joint Venture between TE Connectivity, U.S.A. and RPG Enterprises, India. It is one of the longest running successful joint ventures in India for over 36 years.

Built on foundation of trust and traditions, Raychem RPG is involved in engineering solutions and services. Pioneering smart products and technologies, the company caters to the infrastructure segment of multiple business industries.

ELECTRICAL SAFETY

Raychem RPG's Electrical Safety Products
ensure that electricity doesn't come to you as a shock !

Kamfet™
Electrical Safety Protection

**Insulating gloves Ideal for
Solar Module Electrical Installation,
Operation & Maintenance**

Its natural latex base offers high dielectric characteristics and its uniform thickness (1.00 mm) ensures excellent dexterity while offering protection up to **1000 Vac & 1500 Vdc**

- Conforms to EN 60903-2003, IEC 60903-2014
- Class-0 | Category-RC
- Glove Length : 36 cm. | Size : 8 to 12
- Cuff Design : Straight Cuff & Rolled Edge
- Also available in ARC Flash version

Safety fits like a glove; Try one on

ELECTRICAL SAFETY PRODUCTS

KL Series Electrical Insulating Gloves - Class 00 - Model - KL-A

CE 2777

Arc Flash-Box Tested
IEC-61482-1-2: 2014

ISO 13774:2021
CML-7700736316

- Confirms to EN 60903:2003, IEC 60903:2014, and IEC 61482-1-2 standards
- The ergonomic design offers extended comfort for the wearer, while its thickness guarantees dexterity
- Made from natural rubber latex for maximum durability and flexibility, it offers an ultimate fit, comfort, and performance for the safety and protection of electrical workers
- Classification Type: Class 00, Maximum working voltage: 500 VAC and 750 VDC
- Withstand Voltage: 5 kVAC; Proof Test Voltage: 2.5 kVAC
- Color: Red, Category: AZC, Sizes: 7, 8, 9, 10, 11 & 12
- REACH compliant, Powder-free, **Arc Flash - Box Tested**

ELECTRICAL SAFETY PRODUCTS

Accessories for Insulating Mat / Blanket Storage Bag for Outdoor Application:

Customised for secure transporting and safeguarding insulating mats/Blankets during outdoor tasks. Enhanced with a comfortable shoulder strap for effortless carrying and added convenience.

Benefits

- Transparent pocket for user instruction and storage identification
- Hand carrying straps and shoulder carrying strap

Kamfet - Storage Bag for Electrical Insulating Gloves

Our specialized storage bag for electrical insulating gloves combines safety, durability, and convenience, making it an essential accessory for professionals.

- Heavy-duty, water-resistant nylon or PVC-coated polyester ensures both durability and electrical insulation
- Internal padding and reinforced sections protect gloves from physical damage and wear
- Heavy-duty zippers with an optional lock keep the bag securely closed

ELECTRICAL SAFETY PRODUCTS

Electrical Insulating Matting Fabric Mat Finish - IEC61111 - Dark Grey Color

Electrical Insulating Rubber Matting, also known as electrical safety mats or switchboard matting, is a rubber mat designed to provide electrical insulation and protect workers from electric shocks in areas where electrical equipment is operated. These mats are commonly used in industrial, commercial, and utility environments with a risk of electrical hazards.

Kamfet - Electrical Insulating Rubber Matting: Unmatched Safety, Unrivalled Quality

Introducing **Kamfet** Range of Electrical Insulating Rubber Matting, your ultimate solution for ensuring unparalleled safety in electrical environments. Also known as dielectric or electrical safety matting, our mats are meticulously designed to protect individuals against electrical shock from equipment in switch rooms, in front of switchboards, transformers, and in various high or low-voltage workplaces.

- Fully tested to specification IEC 61111:2009
- High electrical resistance from 50 volts to 50,000 volts
- Suitable for both AC and DC applications
- Provides enhanced safety for operators against electrical shock
- Features an anti-slip surface finish, conforming to slip-resistant test
- Resistant to acid, oil, and low temperatures, ensuring durability
- Permanent marking-durable and un-erasable for clear Identification
- Supplied with full traceability for quality assurance
- Requires minimal maintenance, ensuring long-lasting usability
- Constructed with highly durable and quality rubber compound
- Designed with highly flexible mats featuring a self-gripping design
- Anti-fatigue type, providing comfort during prolonged standing
- Operating temperature range: -40°C to +55°C, suitable for various environments
- Repetitive marking, with three markings every 1 meter
- Halogen-free, RoHS2, and REACH compliant, meeting environmental standards
- Color - **Dark Grey - Mat Fabric Finish**

ELECTRICAL SAFETY PRODUCTS

ARC Flash Protection Products - 8 Cal/Cm2

- **Inherent Flame-Retardant material**
- Fabric Composition: 49% Modacrylic, 45% Cellulose, 5% Para-Aramid, 1% Anti -Static
- The fiber's inherent arc thermal performance value is decided by its molecular structure. The fiber will not be burned inherently. Its flame resistance comes from the fiber itself instead of the chemicals on the surface. Thus, the permanent flame-resistant performance will not be washed out or worn away
- Durable with a long life, its inherent permanent protection will not degrade by washing or wearing
- More breathable & comfortable
- Tested: ASTM F2621/F2621M-22
- ATPV Rating: 8 Cal/cm²
- Meets the NFPA70E- HRC 2
- Lightweight: 240 g/m²
- Daily workwear designed for intensive use is essential for electricians to protect against ARC Flash hazards encountered during the Installation, Operation, and maintenance of electrical equipment

ELECTRICAL SAFETY PRODUCTS

ARC Flash Protection Products - 25 Cal/Cm2

The Kamfet ESK-25 Arc Flash Protection Kit is engineered to deliver maximum protection, comfort, and mobility for electrical professionals working in high-energy environments. It is rated at 25 Cal/cm², meets Category 3 PPE requirements, and exceeds international safety standards.

Superior Protection:

- Arc Thermal Performance Value (ATPV): 25 Cal/cm² – Category 3 PPE
- 100% Inherent FR Fabric: Engineered blend of Modacrylic, Meta-Aramid, Para-Aramid, Anti-static fibres, and Lenzing FR

Ergonomic Design & Comfort :

- Lightweight and breathable construction
- Optimised for a tailored fit, mobility, and all-day comfort
- Adjustable suspenders, elastic waist, and contoured cuts
- Covered zippers and storm flaps for added protection
- Flame-resistant Velcro® and high-durability closures
- Modernised sporty design for a professional appearance

High-Visibility Arc Flash Face Hood :

- Next-gen clear lens technology for enhanced color perception and reduced eye fatigue
- 25 Cal-rated anti-fog, anti-scratch face shield
- Ergonomic hood with integrated hard hat compatibility

Certifications and compliance:

- NFPA 70E – Electrical Safety in the Workplace
- ASTM F1506 – Flame Resistant and Arc-Rated Protective Clothing
- ASTM F2178 – Arc Rating for Face and Eye Protection
- ASTM F2621 – Evaluation of Finished Product Arc Response
- IEC 61482-2 – Protective Clothing Against the Thermal Hazards of an Electric ARC
